2nd February 2023

Dear Parent/Carer

We currently have an outbreak of Conjunctivitis in school. If your child is infected I am advising that you keep your child at home until the infection has cleared in order to clear the infection outbreak in school.

There are things you can do to help ease your symptoms.

- Boil water and let it cool down before you gently wipe your eyelashes to clean off crusts with a clean cotton wool pad (1 piece for each eye).
- Hold a cold flannel on your eyes for a few minutes to cool them down.

To prevent infectious conjunctivitis from spreading.

- Wash your hands regularly with warm soapy water
- Wash your pillow cases and face cloths in hot water and detergent
- Cover your mouth and nose when sneezing and put used tissues in the bin

Kind Regards

Natasha Maude
Headteacher
